

Apprentice Boilermaker Wanted at OMG Engineering - Maddington

Are you enthusiastic about engineering and eager to start your career? OMG Engineering in Perth is seeking a dedicated and motivated Apprentice Boilermaker to join our innovative team!

About Us:

OMG Engineering is a premier provider of cutting-edge engineering solutions, committed to delivering excellence and customer satisfaction. Our team of skilled professionals works on a variety of exciting projects, ensuring top-quality outcomes for our clients.

Role Overview:

As an Apprentice Boilermaker, you will:

- Assist in the fabrication, assembly, and repair of metal structures and components.
- Learn to read and interpret technical drawings and blueprints.
- Work with various welding and metalworking tools and equipment.
- Collaborate with experienced professionals to hone your skills.
- Adhere to safety protocols and maintain a clean, organised work environment.

What We Offer:

- Comprehensive training and mentorship.
- Hands-on experience with advanced technology and techniques.
- A supportive and collaborative work environment.
- Opportunities for career growth and development.

Requirements:

- Strong interest in engineering and metal fabrication.
- Willingness to learn and take on new challenges.
- Good communication and teamwork skills.
- Basic understanding of safety practices.

How to Apply:

If you're ready to embark on an exciting career journey with OMG Engineering, please upload your resume and a brief cover letter via this link:
